

ONE-DAY WORKSHOP ON DETERMINISTIC AND STOCHASTIC DYNAMICAL SYSTEMS

APRIL 4TH, 2011

Seminario Dpto. EDAN
(Facultad de Matemáticas)

Universidad de Sevilla

- 10:00** **Xuerong Mao** (University of Strathclyde, Glasgow, UK)
Stability of SDDEs and Numerical Methods
- 10:45** **Rafael Obaya** (Universidad de Valladolid)
Global attractor in monotone concave differential equations with infinite delays
- 11:30** **Coffee-Break**
- 12:00** **Maurizio Grasselli** (Politecnico Milano, Italy)
Some results on Cahn-Hilliard-Navier-Stokes systems
- 12:45** **Cecilia Cavaterra** (Universita' degli Studi di Milano, Italy)
Cahn-Hilliard equations with memory and dynamic boundary conditions
- 14:00** **Lunch**

Organized and funded by Research Group AESDIF (FQM314) and Grant MTM2008-00088.
